NAYEN 2016

Why a Student Post Exchange Survey?

1. Originally because of several years of unusually high numbers of Early Returns
2. It is now also a significant tool for continuous improvement

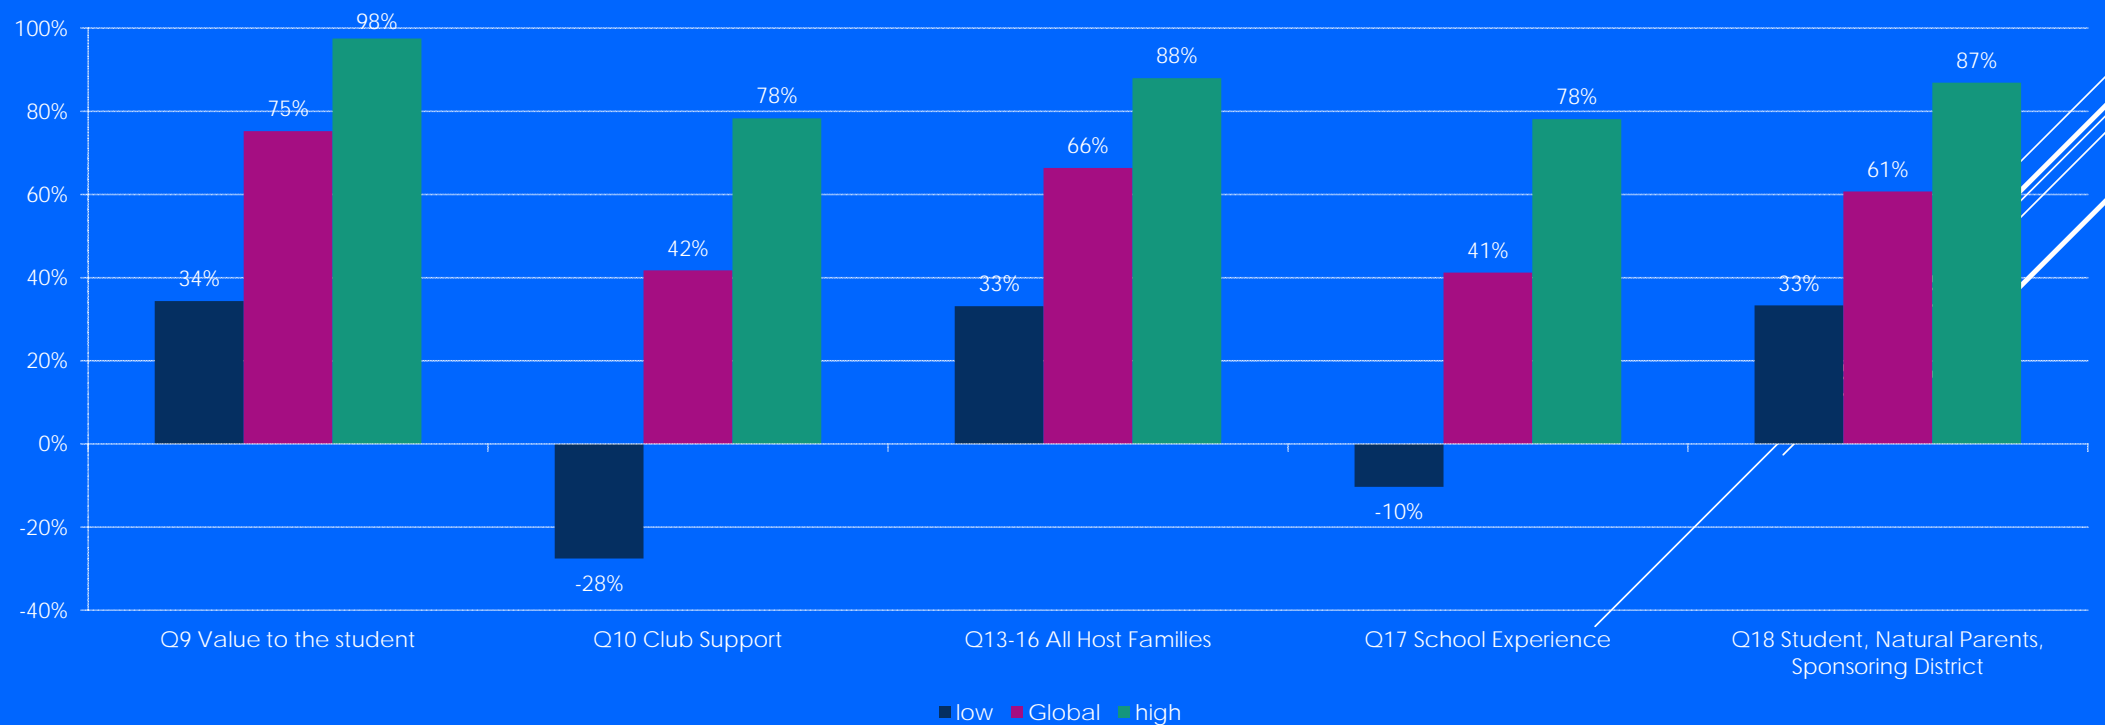

Why THIS Student Post Exchange Survey?

1. Uniform Questions
2. Allows for Global comparisons

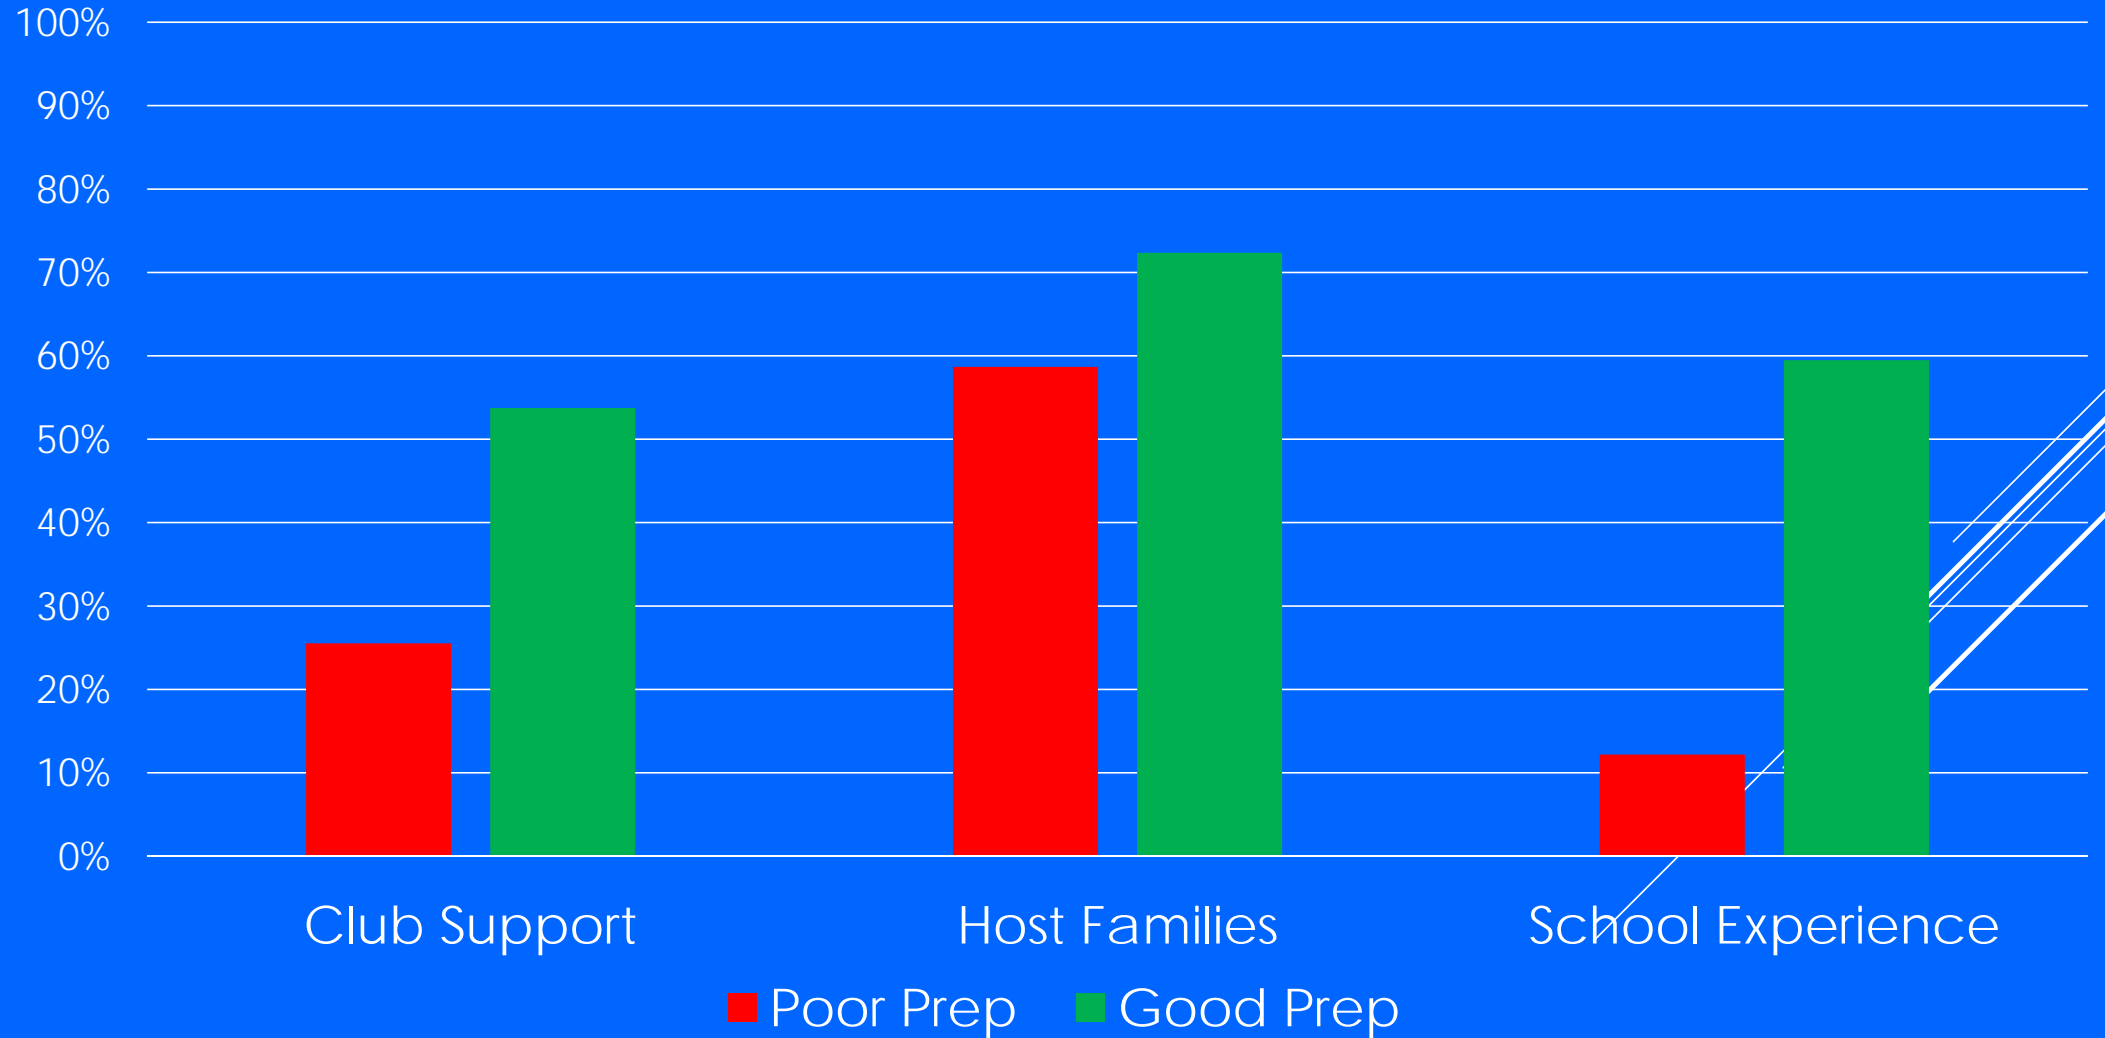

Global Results from 2600 Surveys

Hosted by 363 Districts in 50 Countries

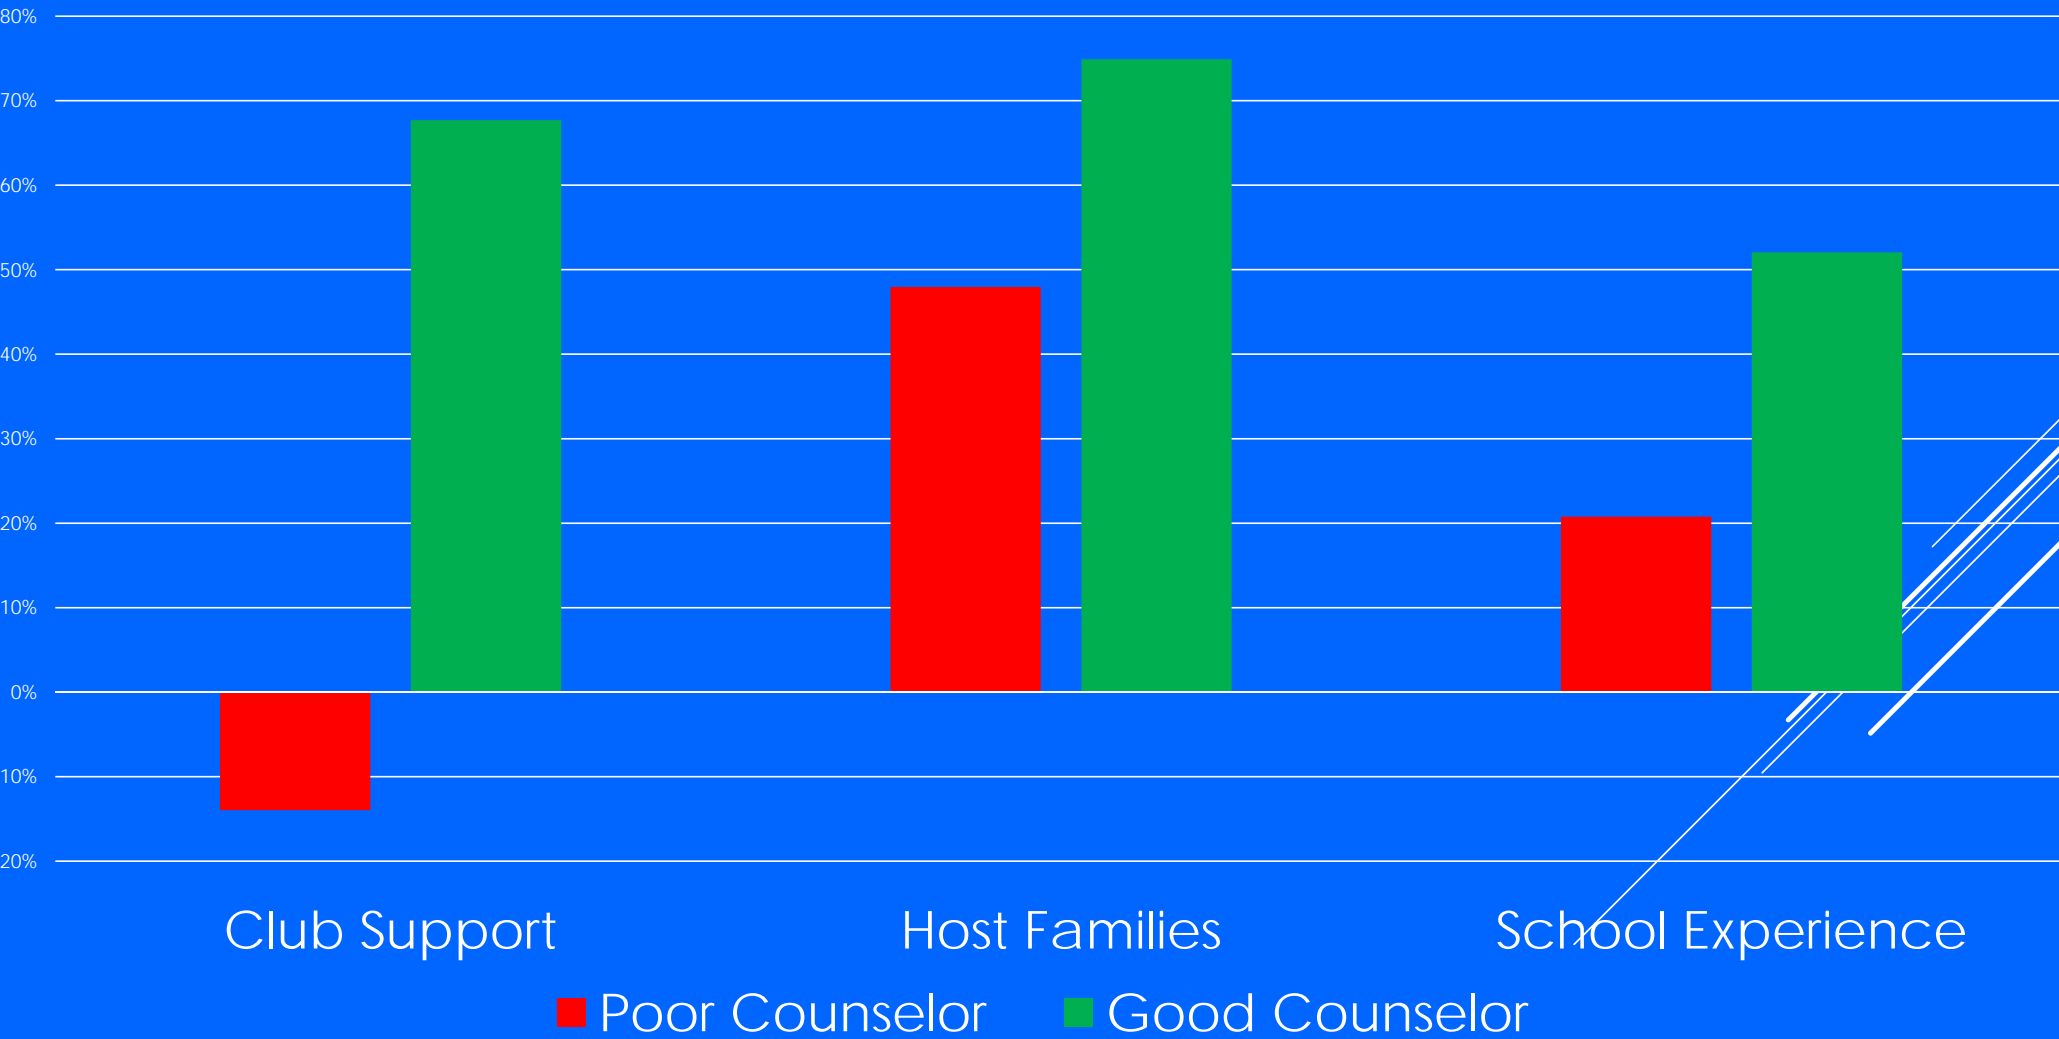

Sponsored by 380 Districts in 51 Countries

Results of Language Preparation

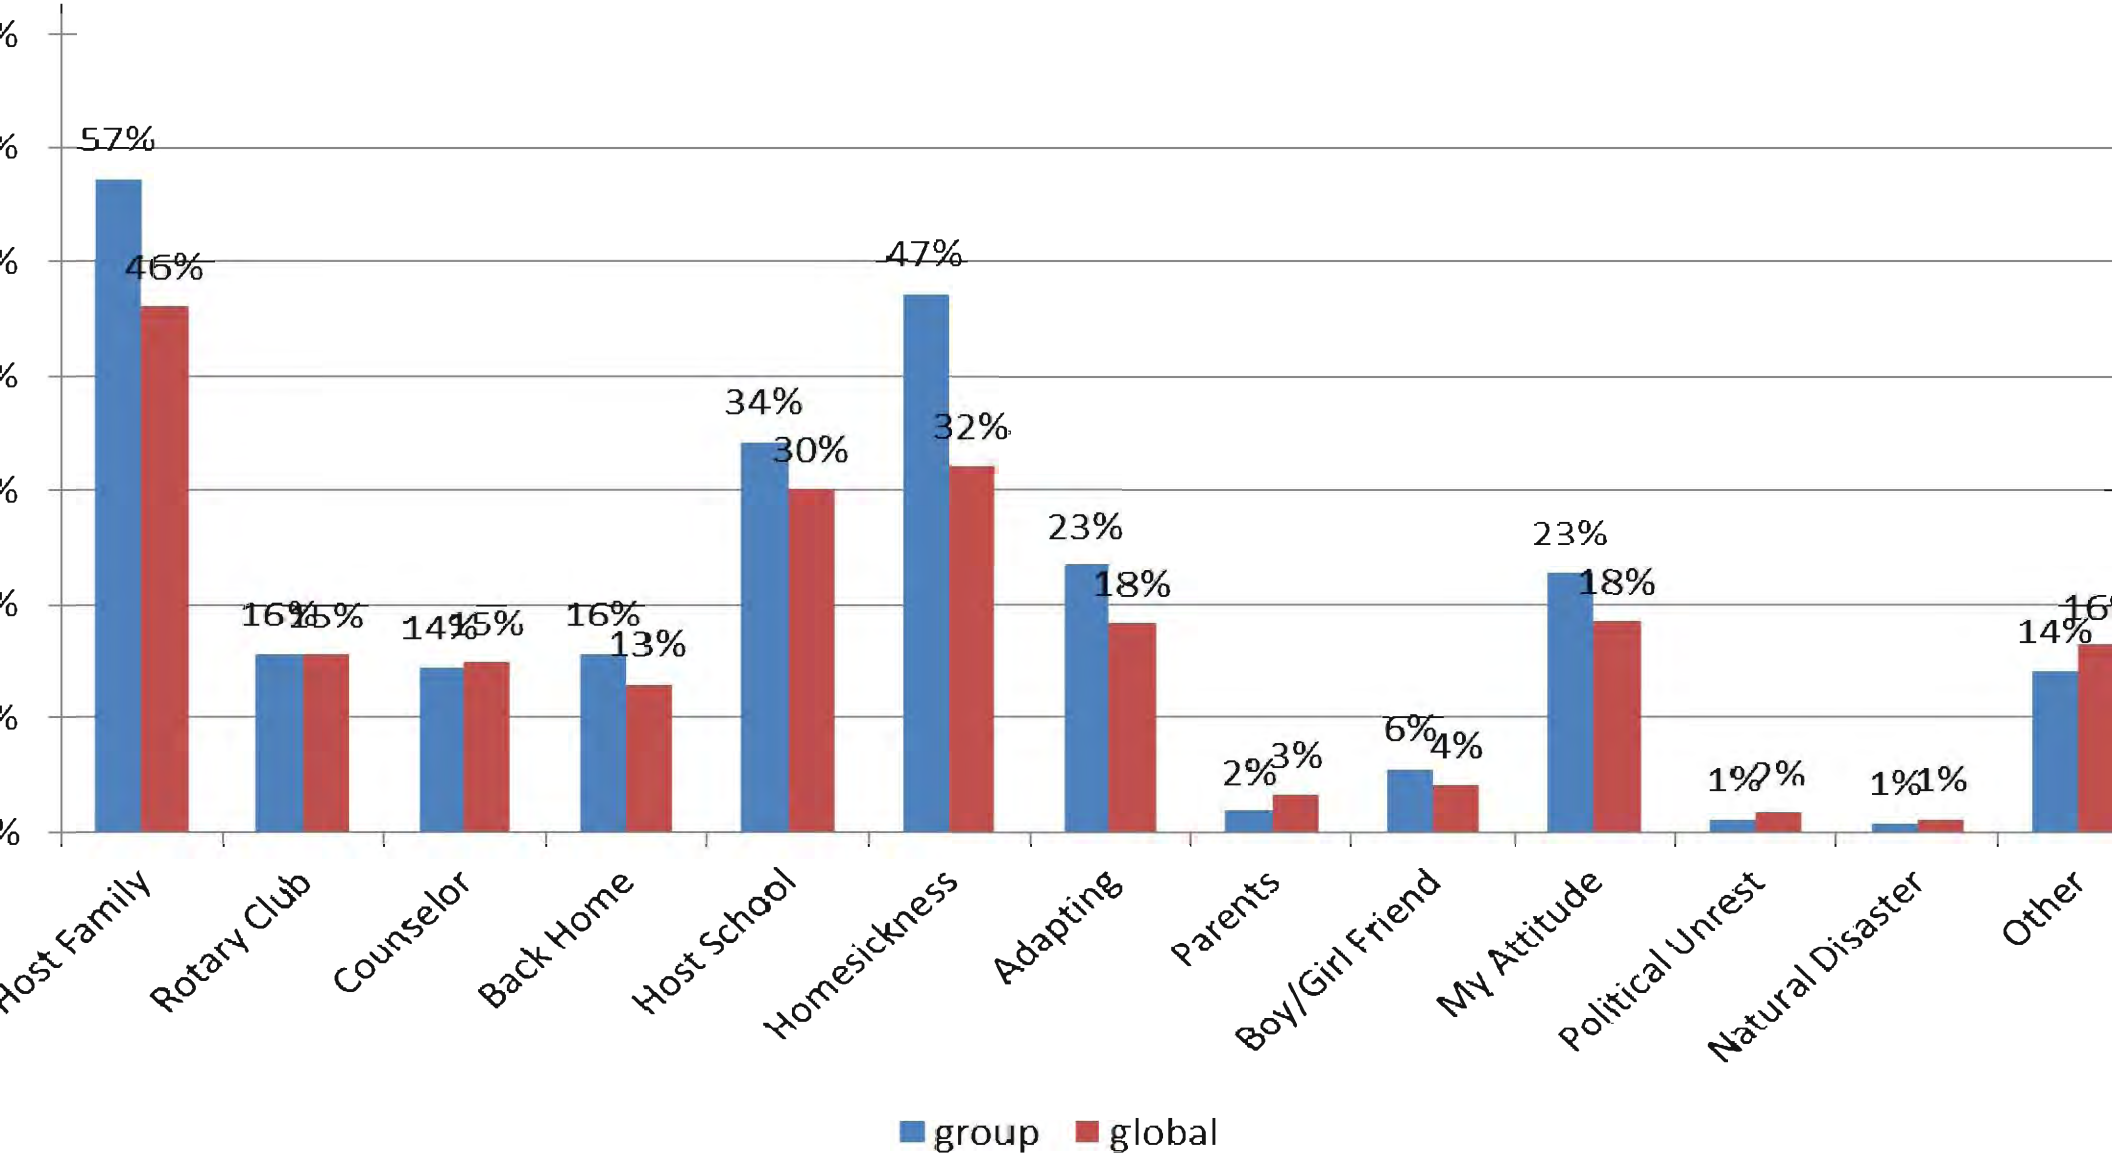

Results of Relationship with Counselor

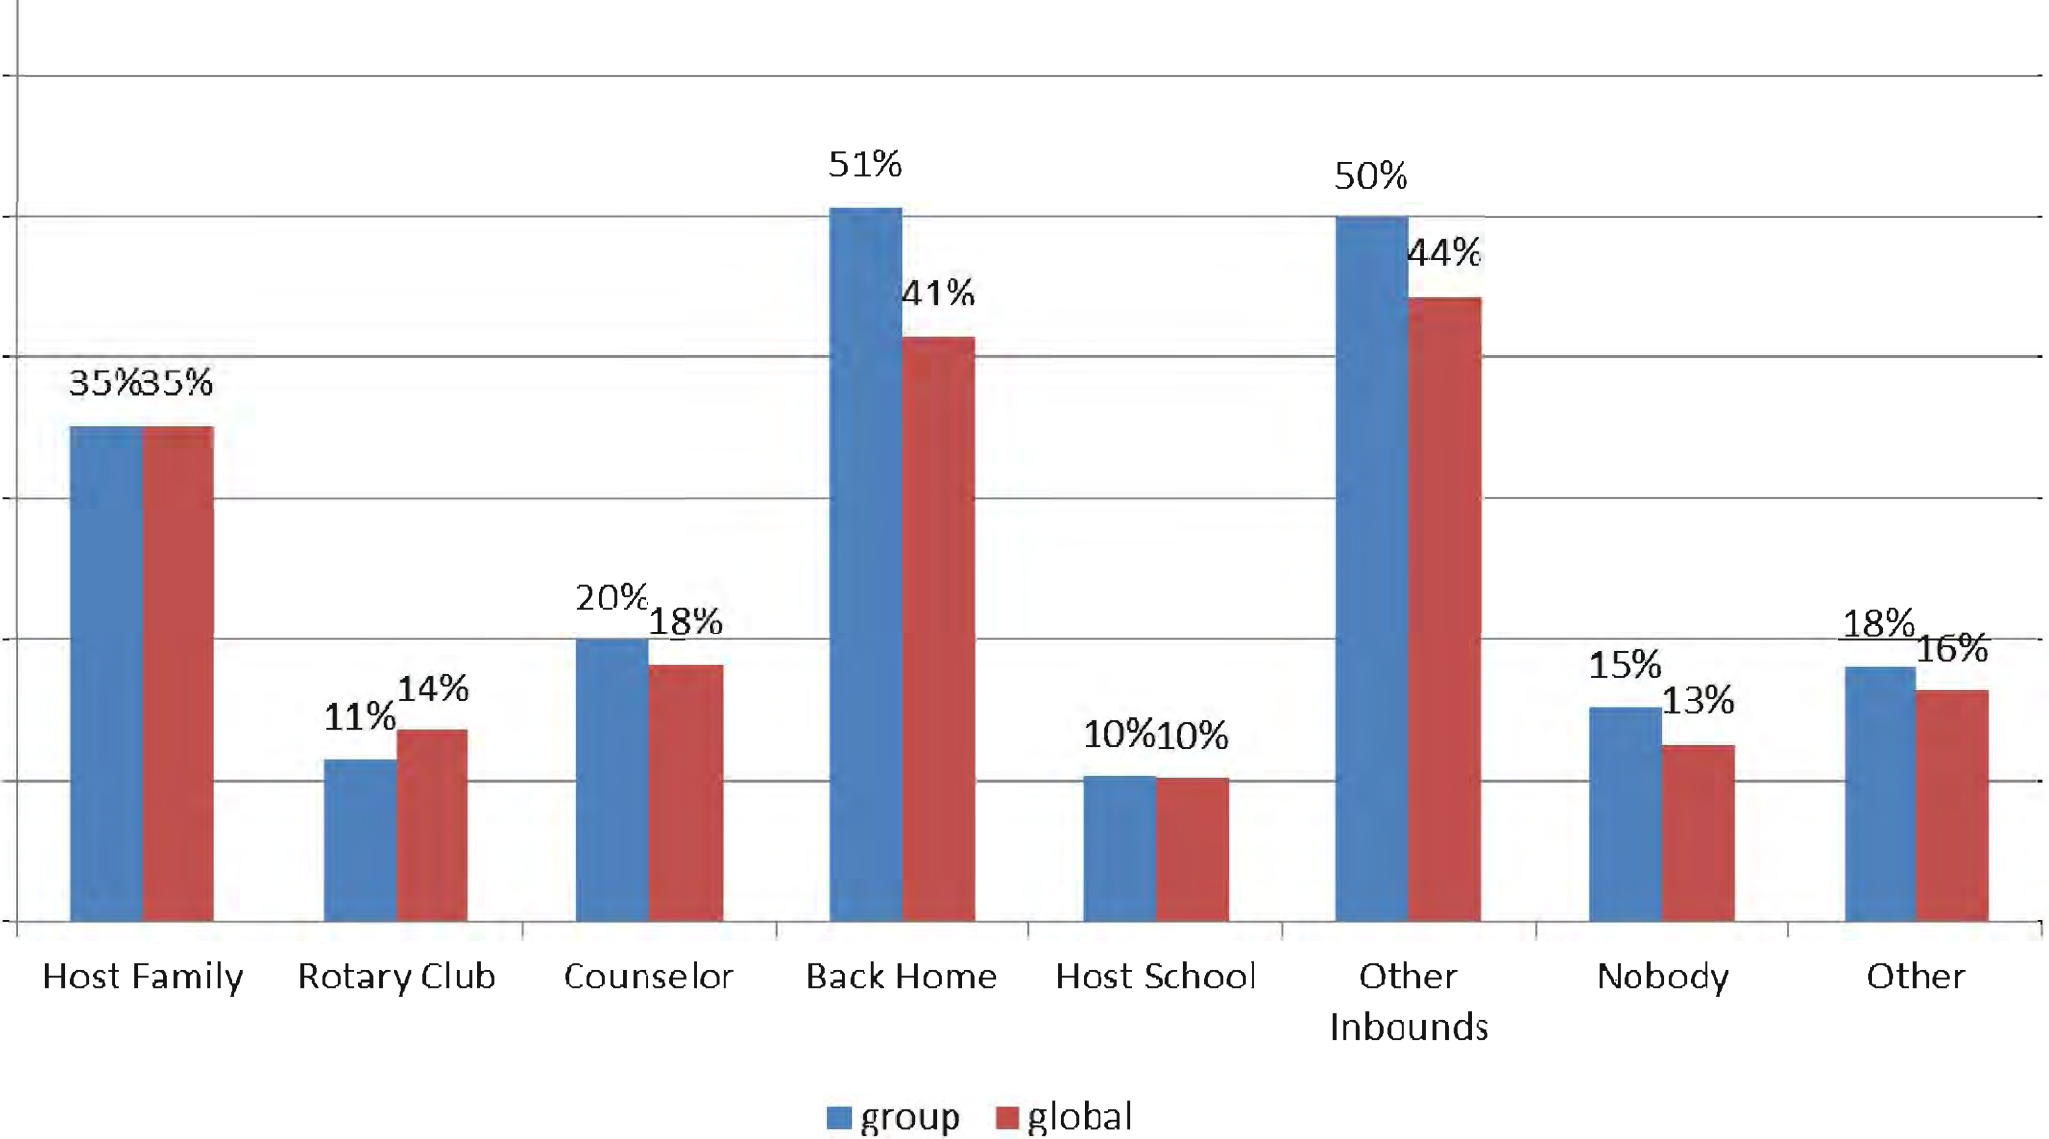

Early Reurns:

Where did the problem originate?

Who helped you with the problem?

WHAT DO WE DO NOW?

- It is important to note that the number of positive responses exceeds the number of negative responses to each of these questions
- This means that while the negative responses do indicate that we have some problems to address, these are problems that affect a subset of the population, rather than all students, all districts, all host clubs, all counselors, all host families
